Find your angle of repose.

Poetic in its simplicity, Carrington is a timeless classic. Its refined wood frame and balanced lines bridge transitional and contemporary design applications. The precise contouring of its slat back provides exceptional comfort. For those who prefer a softer feel, an upholstered model is available. A full spectrum of upholstery and finish choices rounds out the collection's offerings.

- Available in two back styles and heights: upholstered or slat, mid or high. A two-seat bench with a slat back completes the line.
- The kiln-dried hardwood frame is double-doweled and glued for maximum strength.
- Each slat on the slat-back model is individually shaped and hand set to form an ergonomically curved surface, front and back.
- Carrington is certified to meet the requirements of the U.S. Green Building Council's LEED® rating system for indoor air quality. See our website for certificate and specific product details.

Kimball® Office. A place that works for you.

To view the fabrics and finishes available on Carrington, ask your Kimball Office representative to render it in **e-magine**, our planning, specification and visualization software.
