

Delano™ Seating

Kimball® Office

A new attitude.

Make a statement without saying a word. With its sculpted lines and harmony of materials, the Delano Collection reflects your company's individual image and culture. Each piece is a form of expression, yet infinitely responsive; leaving everyone – guests and employees – feeling well taken care of.

- Expansive wood “walls” frame monoslabic profiles for a pure architectural form.
- Tightly tailored bolsters and seat cushions lend calm to the structure.
- Gently curved backrests give supportive comfort.
- Coordinating tables present a squared-away simplicity with their clean, geometric composition.
- Rich wood finishes and meticulously matched veneers, textured fabrics, and polished aluminum accents project a cosmopolitan aesthetic.

The diamond-matched veneer and polished aluminum fastener blend impeccable craftsmanship with a modern approach to form.

A new horizon.

Each piece gracefully complements a variety of public settings, including lobbies, informal meeting areas, high-profile community spaces, hospitality interiors, educational and healthcare settings and stadium suites.

Designed by David Allan Pessa, the Delano Collection has an architectural appeal that projects a sense of confidence anchored by order.

- Tablet arms and storage tables increase the collection's design possibilities for study areas and other productive casual spaces.
- Tandem components join seating and tables in-line for a space-defining arrangement that's always neat.
- Tandem and mobile tables help create teaming and breakout work areas around conversation-encouraging lounge configurations.

 7-24x24 Cocktail Tables

A new perspective.

Purposefully designed using diverse materials and configurable components, the Delano Collection has the versatility and resilience to meet the demands of public waiting areas and high-traffic commercial environments.

- Modular arms, tables, and tablet arms make Delano easy to configure and grow. Options include armchairs, sofas and benches in double and triple widths, tables, and an ottoman.
- Polished aluminum fasteners accentuate and connect — joining arms to backs, seats to tables, and tablet arms when needed.
- Colors and fabrics can be mixed and matched on seats, bolsters and backs to create one-of-a-kind looks.
- Book-matched veneers ensure beautifully consistent wood grain patterns.
- Satin wood finishes are formulated and guaranteed for a lifetime of exceptional color clarity and durability.

The Designer

David Allan Pessa exemplifies restraint, thriving on the challenge of successfully “arriving at more with less.”

“The destination,” he says, “is simply a result of the journey, and it is the journey that evokes the greatest challenge and emotional charge in me.”

David has been designing award-winning products since 1987, when he graduated from Rochester Institute of Technology. He fuels his design journey and sparks his creativity with a protean knowledge of the latest thought shifts and trends in architecture, materials and processes, politics, people, fashion, music and travel.

For the past ten years he has been the managing principal at New Studio, LLC in South Florida.
