Respect™ Seating

Respect combines clean, contemporary lines with high style and simple functionality. High back and mid back models with open arms in satin nickel metallic and cinder create a subtly fashionable impression. Pillow upholstery on seat and back provides welcome comfort while lumbar contour provides support during extended work stays. Classic “baseball” stitching on the seat and back adds a distinctive flair to the upholstery of your choice.

A sleek wood guest chair brings a complete seating solution for private offices, conference rooms, reception areas, lobbies and lounges. Respect is an ideal choice for contemporary-styled financial, professional and health care environments.

Respect is well received.

High back and mid back desk models feature a wood, cinder or satin nickel metallic base. Decorative wraparound arms offer a unique touch. Even with generous padding, Respect exhibits a thin, sleek profile that contributes an air of luxury to your work environment. Obviously, this isn't a typical executive chair. From mobile computer workstations to boardrooms, from technical task areas to plush corner offices... Respect is well received anywhere comfort and style are prime concerns.
